

TRIPLE CROWN ENTERPRISES
GENERAL CONTRACTORS

METAL FABRICATION

TRUST. COMMITMENT. EXCELLENCE.

■ ABOUT TCE

Based out of Hamilton, Ontario, Triple Crown Enterprises (TCE) has been providing safe, dependable construction to clients across Southern Ontario since 1994. Our services include civil, structural, and electrical installation, general construction works, and custom metal fabrications.

We assign a core management team to your project to ensure it is completed to the highest standards. This team will formulate detailed cost estimates and project schedules using the latest software programs, providing you with the best possible approach to a cost-effective plan.

From concept and engineering through to installation, TCE has the skills and resources to provide complete design solutions for all of your fabrication requirements. Our team of professionals, including CWB certified welders, experienced construction crews, Professional Engineers, QA/QC personnel and project managers, can offer design-build construction services for a wide range of projects.

We get the job done on time and on budget with a steadfast commitment to safety, quality, and performance. As a client, you can remain confident both in your investment and in the capabilities of our expertly trained staff and experienced management team.

FABRICATION CAPABILITIES

- Detail Drafting
- Structural Fabrication
- Miscellaneous Steel

■ CUSTOM FABRICATIONS

Our metal and iron work specialists have over 20 years of experience designing, building, and erecting custom steel fabrications of all shapes, sizes and specifications.

- Structural Steel
- Portable Control Rooms
- Pipe Bridges
- Pipe Skids
- Platforms
- Catwalks
- Staircases
- Guard Rails
- Machinery Bases
- Weldments

From all manner of custom metal fabricated structures to stairs, railings, metal buildings, mezzanines, platforms, and safety guarding, no job is out of our comfort zone.

■ FACILITY

We have 37,000 square feet available in our spacious, ISO 9001 certified fabrication facility to accommodate your project, no matter how large or small.

Our design-build specialists work closely with you to ensure all of your equipment needs are met. Clients have the opportunity to test and evaluate the equipment designs at our large fabrication facility in Hamilton, Ontario prior to installation.

MATERIALS

We work with a wide variety of materials including carbon steel, stainless steel, aluminum, abrasive resistant steel, heat resistant alloys, and more.

EQUIPMENT

Our fabrication facility is equipped with machines to cut, burn, form, machine, weld, assemble, and paint, enabling our team to complete entire projects conveniently in a single location.

- Plasma Cutter
- 20 Ton Crane
- 10 Ton Crane
- 5 Ton Crane
- Band Saw
- Hydraulic Brake Presses
- Magnetic Drills
- Rolls
- Paint Booth
- Shot Blast Machine

PAINTING AND FINISHING

Our full-service paint booth and shot blast machine, located within our fabrication facility, enables us to clean (SSPC-SP-6 & SP-10) and paint a wide range of materials in-house with a variety of finishes.

WELDING

We continue to be up-to-date with the latest approved welding procedures. With our CWB certification, you can be assured that our welders are bound to the highest standards of quality and safety.
